VALUEVILLAGE / JAPAN TRAVEL

Tokyo without a car

A practical checklist to save, print and take with you

MY DAY: _____ **AREA:** _____

Return station / route: _____

- [ ] **1.** Choose one area and two main stops. Allow room for lunch, transfers and an indoor backup rather than treating a short map distance as a short journey.
- [ ] **2.** Write down the line, station and exit for each stop. Tokyo Metro station numbers combine a line letter with a station number; use them alongside the station name.
- [ ] **3.** Check each operator used by your route before buying a pass. The Tokyo Subway Ticket covers Tokyo Metro and Toei Subway; check other parts of your journey separately.
- [ ] **4.** Confirm the outward journey and the last suitable return on your travel date. Include the walk from the venue entrance to the correct station entrance.
- [ ] **5.** Check access, opening and reservations with each venue. For lifts or step-free access, check the actual station and venue entrances you will use.
